SYSTEM DESCRIPTION

An AI tool that scans job applicants' CVs and ranks them for recruiters.

APPLICABLE ARTICLE / ANNEX

Annex III(4) - Employment, recruitment and selection

REASONING

CV screening and candidate ranking falls under Annex III point 4 (employment/recruitment), which covers AI used to screen or filter job applications and evaluate candidates. This materially influences hiring outcomes, so the significant-risk threshold in Article 6(3) is met.

DOCUMENTATION CHECKLIST

- Risk management system (Article 9)
- Technical documentation (Article 11, Annex IV)
- Record-keeping / logging (Article 12)
- Transparency to candidates (Article 13)
- Human oversight measures (Article 14)
- Conformity assessment and CE marking
- Registration in the EU high-risk AI database

This is an automated first-pass triage only and does not constitute legal advice. It is generated by an LLM against a condensed summary of Regulation (EU) 2024/1689 and may be incomplete, out of date, or wrong for ambiguous or novel use cases. Confirm any consequential classification with qualified legal counsel.
