SYSTEM DESCRIPTION

A chatbot on our e-commerce website that answers customer questions about order status and returns.

APPLICABLE ARTICLE / ANNEX

Article 50(1) - Transparency for direct interaction

REASONING

The system interacts directly with natural persons and does not fall into any Annex III category or Article 5 prohibition. It only triggers the Article 50 obligation to disclose that users are interacting with an AI system.

DOCUMENTATION CHECKLIST

- Clear disclosure that the chatbot is an AI system
- Disclosure should be obvious at first interaction, unless already obvious from context

This is an automated first-pass triage only and does not constitute legal advice. It is generated by an LLM against a condensed summary of Regulation (EU) 2024/1689 and may be incomplete, out of date, or wrong for ambiguous or novel use cases. Confirm any consequential classification with qualified legal counsel.
