SYSTEM DESCRIPTION

A tool that uses AI to summarize long legal contracts into plain-language bullet points for internal staff.

APPLICABLE ARTICLE / ANNEX

None - outside Annex III, Article 5, and Article 50

REASONING

Contract summarization for internal use does not fall into an Annex III category (it does not itself administer justice or apply law to facts on behalf of a court) and doesn't interact directly with external end-users in a way that triggers Article 50.

BORDERLINE NOTE

If outputs were used to assist a court or tribunal in researching/interpreting facts or law (Annex III point 8), this would shift to high-risk. Confirm the actual deployment context.

DOCUMENTATION CHECKLIST

- No mandatory documentation required
- Optional: adopt a voluntary code of conduct (Article 95)

*This is an automated first-pass triage only and does not constitute legal advice. It is generated by an LLM against a condensed summary of Regulation (EU) 2024/1689 and may be incomplete, out of date, or wrong for ambiguous or novel use cases. Confirm any consequential classification with qualified legal counsel.*
