

PROHIBITED — Unacceptable Risk	CONFIDENCE	REVIEW FLAG
	High	—

SYSTEM DESCRIPTION

A system that monitors employees' facial expressions and tone of voice during work hours to flag 'disengagement' to managers.

APPLICABLE ARTICLE / ANNEX

Article 5(1)(f) - Emotion recognition in the workplace

REASONING

This is emotion recognition deployed in the workplace, which Article 5(1)(f) prohibits outright, absent a narrow medical or safety exception. No conformity assessment route exists to make this compliant.

DOCUMENTATION CHECKLIST

- No compliance path exists - system must not be placed on the market or put into service
- Cease development/deployment or redesign entirely to remove emotion recognition

This is an automated first-pass triage only and does not constitute legal advice. It is generated by an LLM against a condensed summary of Regulation (EU) 2024/1689 and may be incomplete, out of date, or wrong for ambiguous or novel use cases. Confirm any consequential classification with qualified legal counsel.
